RUN FOR VAUGHAN 2008

2007 was an exciting year for health-care in Vaughan. On April 27, 2007, George Smitherman, Minister of Health and Long-term Care, announced a planning grant for a Vaughan Hospital. Our Local Health Integration Network, together with the Vaughan Health Care Foundation completed the first stage of Vaughan's hospital plan, and construction began on Vaughan's first Community Health Centre (CHC)

This year promises to be equally exciting. In the Fall, our Community Health Centre will open its doors to patients – going from announcement to completion in only two years.

I want to especially thank the members of the Ahmidiyya community for all of the participants, donors, and volunteers that have supported a Vaughan Hospital from day one – truly a great community in support of a great cause.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Greg Sorbara'.
